BOSTON.

FOURTH REPORT

OF THE

RECORD COMMISSIONERS.

Boston, Sept. 1, 1880.

The following report of the Committee on Printing explains not only the form of this volume, but the length of time which has been needed for its preparation:—

CITY OF BOSTON,

IN BOARD OF ALDERMEN, Nov. 2, 1879.

The Committee on Printing respectfully offer the following report upon printing the Town Records of Dorchester:—

In February last the following order was passed by the City Council:—

“Ordered, That the Record Commissioners be authorized to have transcribed and indexed the land records of the town of Dorchester, and to have the same printed and distributed in the same manner as their previous reports, at an expense not exceeding \$1,000; to be charged to the appropriation for Printing.”

Under this order the Record Commissioners have supplied about a hundred pages of copy, which have been put in type; but the work is now suspended, to await the further action of the City Council.

On the 25th of September the following petition was presented in the Common Council:—

“To the Honorable the City Council of the City of Boston:—

“The undersigned, citizens of Boston and others, respectfully represent that, by an order passed Feb. 18, 1879, the Record Commissioners were authorized to print certain extracts from the Town Records of Dorchester.

“They further represent that, in their opinion, it would be unwise and inexpedient to neglect any portion of said records, and that the appearance in print of an incomplete and mutilated transcript thereof would be greatly to be deplored.

“They therefore pray that said order may be so amended as to author-

ize said commissioners to include in their forthcoming report all the records contained in the first volume of the Records of the Town of Dorchester, or so many consecutive pages thereof as said commissioners may be able to print with the appropriation already made therefor.

This petition was referred to the Committee on Printing, with directions to hear the petitioners. The following order was also referred to the committee:—

“IN COMMON COUNCIL, Sept. 25, 1879.

“*Ordered*, That, under the order authorizing the transcribing and indexing of the land records of Dorchester, the Record Commissioners be authorized to have transcribed and indexed so much of the first volume of the Town Records of the town of Dorchester as the appropriation made in said order will defray the expense of preparing and publishing.”

At a hearing of the petitioners and others interested, several gentlemen of the Dorchester Antiquarian Society and others appeared, and earnestly advocated the objects of the petition. Mr. Whitmore, the Record Commissioner, also appeared, and fully stated his views, in opposition to the petitioners.

The difference of opinion between the Record Commissioners and the petitioners relates mainly to the essential change involved in the plan of the commissioners, by adopting the views of the petitioners. The plan of the Record Commissioners, for Dorchester and other sections of the city, is substantially to print a collation from the ancient records, and especially relating to lands; while the petitioners desire the complete reproduction in print of the ancient records, so far as the same limited expenditure will permit. The most ancient records are the most dilapidated; and it is considered more important to save the most ancient from destruction, than it is to present a collation of them down to a later time.

The statutes of the Commonwealth make very careful provisions for the proper production, care, and preservation of public records. It is further provided, that “when the records of a county, city, or town are becoming worn, mutilated, or illegible, the County Commissioners, City Government, or Selectmen, shall have fair, legible copies seasonably made.” This requirement is imperative, and the committee have sought, in view of it, to give the whole subject before them the careful consideration its magnitude and importance require.

It being essential to preserve and renew the ancient records, according to law, the only question to consider is, what is the best method of accomplishing this object? The requirement of the law is met by transcribing the original, and substantially binding the copy. But this method, at considerable expense, produces but a single copy, to be preserved in one place only, for reference in all future time. This isolates the book from the public inspection, and renders it only a book of ref-

erence to painstaking inquirers only. The volumes printed by the Record Commissioners are in editions of 1,500 copies, and are placed in the bound volumes of the City Documents for perpetual preservation, and in various libraries of the city, accessible to all the people, as well as in many private hands and libraries of those more especially interested in their contents.

The committee consider the Record Commission entitled to public thanks for their valuable services to the city, gratuitously rendered, and the commendable economy of expenditure they seek to maintain. But the committee are convinced that the basis of operations planned by the commission does not sufficiently cover the legitimate work to be done on the ground they occupy. And the committee feel assured, from the expressed opinions of Commissioner Whitmore, that there is no difference of opinion as to the desirability of reproducing the ancient records in print, with the exception of the cost involved in the change of plan now pursued by the Record Commission.

The ordinance creating the office of the Record Commissioners defines their duties as follows: "To complete, as far as practicable, the record of births, deaths, and marriages in the town and city of Boston, prior to A.D. 1849."

The commissioners, in their first report (City Document No. 92, 1876), say, "A reasonable construction of the duties of the commissioners seems to include therein all such investigations as will directly assist in perfecting the record of the vital statistics of Boston."

The second report of the commissioners (City Document No. 46, 1877) takes a new departure from the preceding limited sphere of operation, by special order of the City Council to print "a transcript of the first volume of the Town Records and of the Book of Possessions." This report of the commissioners presents in print "faithful transcripts of the two earliest volumes of the records of the town of Boston." The report further says, "The records of the town of Boston, now in the custody of the City Clerk, may be described as follows:—

"Ten volumes, of which the first is here printed, containing the acts of the town from 1634 to 1822. The first volume (1634-1660) contains also the acts of the Selectmen; the second volume (1660-1728) contains the acts of the Selectmen from 1660 to 1701, and thenceforward it records only the proceedings of the town. In 1701 the system was established of recording the doings of the Selectmen separately, and twenty-three volumes contain their records until 1822."

These books, with a few miscellaneous volumes, comprise the old records of the city proper. By annexations are added Charlestown, Dorchester, Roxbury, West Roxbury, and Brighton.

The commissioners say, in their second report, "It is hoped that the City Government will authorize the Record Commissioners to continue the work of publishing the records; of course, not in full, but by means of such judicious selections as will afford valuable information about our predecessors."

The third report of the commissioners (City Document No. 39, 1878) is devoted to the Charlestown land records. This report says, "The commissioners may perhaps anticipate that other portions of the city, as Roxbury and Dorchester, may call for a similar publication of their records of early grants and possessions of land. There has also been a feeling manifested in favor of printing the first volume of deeds for Suffolk County, inasmuch as the expense would be but little greater than that of a manuscript copy. Certainly the old town of Boston requires a second volume of extracts from its records, to complete the grants of lots and the laying out of streets. Whilst the commissioners will cheerfully discharge any duties of the above-named nature which may be assigned to them, they beg leave to repeat their previous notice that their main duty is still unfulfilled. The transcripts of the church

records, to supplement and complete the records preserved by the City Registrar, are still to be made. They hope, therefore, to receive instructions during the next year, to make a beginning upon their most necessary and long-delayed work."

The next report of the Record Commissioners will be the Dorchester records, provided for by the order at the beginning of this report. This order authorizes a collation of the land records only; and the initiation of the work produces the remonstrance of the gentlemen interested in the records of Dorchester, who desire that the work shall be a reproduction of the ancient records as far as the work progresses, on the same appropriation. It is evident to the committee that the petitioners are right in their position, and their views ought to be sustained. The records should be published complete. The cost at most will be small compared to the value of their preservation. It is also evident to the committee that the extensive work laid out by the Record Commissioners is proceeding on a plan far too contracted properly to accomplish the objects intended and desirable to be attained.

The reports of the commissioners are based upon specific appropriations not exceeding one thousand dollars, respectively, and usually result in expenditures considerably less than the sum named. The committee are of opinion that five thousand dollars ought to be annually appropriated, as an element of the appropriation for printing, for expenditure under requisitions by the Record Commissioners, in accordance with special orders by the City Council. This would enable the commissioners to carry out a judicious system of annual work, and meet the legal requirements for reproducing the ancient records complete. The result of the expenditure would probably be the best economy in the end, as well as largely aid the citizens in the knowledge of the ancient times and memorable historical events. It must be considered that we are now living in the third century of the city's existence; and that our preservation of the ancient records is not for ourselves alone, but for the unknown centuries to come.

The committee recommend the passage of the following orders.

HUGH O'BRIEN,
Chairman.

Ordered, That the order of February last, authorizing the Record Commissioners to have transcribed and indexed the land records of the town of Dorchester, be, and the same is, hereby rescinded.

Ordered, That the Record Commissioners be authorized to have transcribed and indexed the first volume of the records of the town of Dorchester; and to have the same printed and distributed in the same manner as their previous reports, or so many consecutive pages of the same as can be done at a cost not exceeding one thousand dollars; to be charged to the appropriation for Printing.

This report was accepted, and the orders were duly passed. The commissioners, being thus relieved from the responsibility of using any discretion in the matter, have attempted only to print the requisite number of pages of the Dorchester Records as they stood in the original. The copying was entrusted to Miss Susan B. Kidder, whose skill in such matters is well known; and Mr. William B. Trask very kindly volunteered to compare her copy with the original. It is believed, therefore, that an accurate transcript has been obtained.

In printing, the *forms* of the letters have been preserved, not their true meaning. Thus *u* is used for *v*, because the written *v* was of the shape of the printed *u*; but, of course, our ancestors did not transpose the sounds of the letters. The initial *F* has been employed, although the written form was more nearly *ff*; but the use of this form would have made the page more uncouth than it is. It was intended also to follow the abbreviations where possible, without having special types cut, but the forms *y^e*, *y'*, etc., have been printed *the*, *that*, etc.

It is a mistaken idea to suppose that those words had the *y* sound; they were pronounced with the *th*, as at present.

Of the value of these records much may be said. The successive clerks of the town unfortunately kept all their records in one book, and a continuous transcript obliges us to print many matters of little value then, and of even less now. Still, as so little is known of the rise of our town system, it would be, perhaps, difficult to say of any part of this book, that it does not have some value to some student. Thus, on p. 289 of our pagination, will be found a document often referred to as "The Directory," which is a curious statement of the powers of the selectmen, and of the rise and progress of town government.

Great pains have been taken to obtain a good index; but a thorough index of subjects, as well as names, would have been an additional expense, which the commissioners did not feel warranted in incurring.

In accordance with the suggestion of the Committee on Printing, the City Council this year has appropriated the sum of five thousand dollars for the publication of historical documents.

The following four volumes have been decided upon, and progress has been made on all of them, so that they may be completed during the present financial year: Fifth Report, the "Gleaner" articles on Boston land-titles, by the late N. I. Bowditch. Sixth Report, Roxbury Land Records. Seventh Report, Continuation of the Boston Town Records. Eighth Report, Boston Births, Baptisms, Marriages, and Deaths, chronologically arranged.

The commissioners hope to issue their fifth and sixth reports before December 31, 1880.

Respectfully submitted,

WILLIAM H. WHITMORE,

WILLIAM S. APPLETON,

Record Commissioners.

PREFACE TO THE THIRD EDITION.

The first volume of Dorchester Town Records, in manuscript, contains 636 pp. It describes the doings of the plantation and town from Jan'y, 1632 (on p. 5, the earliest entry), to 1718-9.

This printed volume gives the entire record from 1632 to March, 1686-7, ending with page 282 of the printed edition and page 381 of the original.

On page 282 of the printed edition (page 385 of the original) begins the Book of Accounts for the County and Town Rates, and of the Constables and Treasurers appointed to collect the same; ending on page 320 of the printed edition, which corresponds with page 429 of the original. From page 438 (eight pages being omitted in the numbering by a clerical error) to 636 of the first volume the records of town meetings, of selectmen and accounts, continue to March 9, 1718-9; closing with three entries relating to the years 1719-20. This portion and the second volume of manuscript records remain to be printed hereafter.

The records describe the administration of affairs of the plantation and town; the doings of the selectmen; the minutes of town meetings; allotments of lands, etc.; the erection of the meeting-house, and of the school-house; the building of bridges, highways, and fences; the laying-out of a burial place, water-mill, fort: and the establishment of rates or taxes for public purposes.

The second edition was thoroughly revised by Mr. William B. Trask in 1883. Numerous small corrections were then made, but none calling for special mention. The plates have not been altered for this reprint.

GEO : WEEKES.

[63.] It is agreed at a generall meetinge of the Towne the 26th of the 12 m^o 1644 for peace and lones sake that there shalbe a new meeting house built on Mr. Hawards land in the most Convenient place betwixt Mr. Stoughtons garden and his barne and this agreement to stand firme except any Considerable number of such as are absent frō this meeting shall giue any satisfactory reasons vnto the 7 men within 14 dayes for any other alteration of the place.

Upon a generall and lawfull warning of all the Inhabitants the 14th of the 1st moneth 1645 these rules and orders following p'sented to to the Towre Concerning the Schoole of Dorchester are Confirmed by the maior p'te of the Inhabitants then p'sent.

First It is ordered that three able, and sufficient men of the Plantation shalbe Chosen to bee wardens or oūseers of the Schoole aboue mentioned who shall haue the Charge oū sight and ordering thereof and of all things Concerneing the same in such manner as is hereafter expressed and shall Continue in their office and place for Terme of their liues respectiuey, vnlesse by reason of any of them Remouing his habitation out of the Towne, or for any other weightie reason the Inhabitants shall see cause to Elect or Chuse others in their roome in which cases and vpon the death of any of the sayd wardens the Inhabitants shall make a new Election and choice of others.

And Mr. Haward, Deacon Wiswall, Mr. Atherton are elected to bee the first wardens or oūseers.

Secondly, the said Wardens shall haue full power to dispose of the Schoole stock whither the same bee in land or otherwyse, both such as is already in beeing and such as may by any good meanes heereafter be added: and shall Collect and Receiue the Rents, Issues and p'fitts arising and growing of and from the sayd stock. And the sayd rents Issues and p'fitts shall imploy and lay out only for the best behoof, and advantage of the sayd Schoole: and the furtherance of learning thereby, and shall giue a faythfull and true accompt of there receipts and disbursements so often as they shalbee therevnto required by the Inhabitants or the maior p'te of them.

Thirdly the sayd Wardens shall take care, and doe there vtmost and best endeavor that the sayd Schoole may frō tyme to tyme bee supplied with an able and sufficient Schoolemaster who neūthelesse is not to be admitted into the place of Schoolem^r without the Generall cōsent of the Inhabitants or the maior p'te of them.

Fowerthly so often as the sayd Schoole shalbee supplied with a

Schoolem^r — so p^rvided and admitted, as aforesayd the wardens shall frō tyme to tyme pay or cause to be payd vnto the sayd Schoolem^r such wages out of the Rents, Issues and p^rfitts of the Schoole stocke as shall of right Come due to be payd.

Finethly the sayd wardens shall from tyme to tyme see that the Schoole howse bee kept in good, and sufficient repayre, the Charges of which reparacion shalbe defrayed and payd out of such rents, Issues and p^rfitts of the Schoole stock, if there be sufficient, or else of such rents as shall arise and grow in the time of the vacancy of the Schoolem^r — if there bee any such and in defect of such vacancy the wardens shall repayre to the 7 men of the Towne for the tyme beeing who shall haue power to taxe the Towne with such some, or sommes as shalbe requisite for for the repaying of the Schoole howse as aforesayd.

[64.] Sixthly the sayd Wardens shall take Care that eūy yeere at or before the end of the 9th moneth their bee brought to the Schoolehowse 12 sufficient Cart, or wayne loads of wood for fewell, to be for the vse of the Schoole master and the Schollers in winter the Cost and Charges of which sayd wood to bee borne by the Schollers for the tyme beeing who shalbe taxed for the purpose at the discretion of the sayd Wardens.

Lastly the sayd Wardens shall take care that the Schoolem^r for the tyme beeing doe faythfully p^rforme his dutye in his place, as schoolm^{rs} ought to doe as well in other things as in these which are hereafter expressed, viz.

First that the Schoolem^r shall diligently attend his Schoole and doe his vtmost indeavor for Benefitting his Schollers according to his best discretion without vnnecessarily absenting himself to the p^riudice of his schollers, and hindering there learning.

2^{ly} that from the begining of the first moneth vntill the end of the 7th he shall eūy day begin to teach at seaven of the Clock in the morning and dismisse his schollers at fyue in the afternoone. And for the other five moneths that is from the beginning of the 8th moneth vntill the end of the 12th mōth he shall eūy day beginn at 8th of the Clock in the morning and [end] at 4 in the afternoone.

3^{ly} eūy day in the yeere the vsuall tyme of dismissing at noone shalbe at 11 and to beginn agayne at one except that

4^{ly} eūery second day in the weeke he shall call his schollers together betweene 12 and one of the Clock to examin them what they haue learned on the saboath day p^rceeding at which tyme also he shall take notice of any misdemeanor or disorder that any of his skollers shall haue Committed on the saboath to the end that at somme convenient tyme due Admonition, and Correction may bee admistred by him according as the nature, and qualitie of the offence shall require at which sayd examination any of the elders or other Inhabitants that please may bee p^rsent to behold his religious care herein and to giue there Countenance, and ap^rbation of the same.

5^{ly} hee shall equally and impartially receiue, and instruct such as shalbe sent and Comitted to him for that end whither their parents bee poore or rich not refusing any who haue Right and Interest in the Schoole.

6^{ly} such as shalbe Comitted to him he shall diligently instruct as they shalbe able to learne both in humane learning, and good litterature, and likewyse in poynt of good manners, and dutifuli behauiour towards all specially their sup'iors as they shall haue occasion to bee in their p'sence whether by meeting them in the streete or otherwyse.

7^{ly} eūy 6 day of the weeke at 2 of the Clock in the afternoone hee shall Chatechise his schollers in the principles of Christian religion. either in some Chatechism which the Wardens shall p'vide, and p'sent or in defect thereof in some other.

8^{ly} And because all mans indeavors without the blessing of God must needs bee fruitlesse and vnsuccessfull theirfore It is to be a cheif p'te of the schoolem^{rs} religious care to Comend his schollers and his labours amongst them vnto God by prayer. morning and euening, taking Care that his schollers doe reuendly attend during the same.

9^{ly} And because the Rodd of Correction is an ordinance of God necessary sometymes to bee dispenced vnto Children but such as may easily be abused by oūmuch seūitie and rigour on the one hand, or by oū much indulgence and lenitye on the other It is therefore ordered and agreed that the schoolemaster for the tyme beeing shall haue full power to minister Correction to all or any of his schollers without respect of p'sons according as the nature and qualitie of the offence shall require whereto, all his schollers must bee duely subiect and no parent or other of the Inhabitants shall hinder or goe about to hinder the master therein. Neūthelesse if any parent or others shall think their is iust cause of Complaynt agaynst the master for to much seūitye, such shall haue liberty freindly and louingly to expostulate [65.] with the master about the same, and if they shall not attayne to satisfaction the matter is then to bee referred to the wardens who shall imp'tially Judge betwixt the master and such Complaynants. And if it shall appeare to them that any parent shall make causelesse Complaynts agaynst the m^r. in this behalfe and shall p'sist and Continue so doeing in such case the Wardens shall haue power to discharge the m^r of the care, and Charge of the Children of such parents. But if the thing Complayned of bee true and that the m^r. haue indeed bene guiltie of ministring excessive Correction, and shall appeare to them to Continue therein, notwithstanding that they haue advised him otherwise, in such case as also in the case of to much lenitye; or any other great neglect of dutye in his place, p'sisted in It shalbe in the power of the Wardens to call the Inhabitants together to Consider whither it were not meet to discharge the m^r of his place that so somme other more desirable may be p'vided

And because it is difficult if not Impossible to give p'ticular rules that shall reach all cases which may fall out, therefore for a Conclusion It is ordered, and agreed, in Generall. that where p'ticular rules are wanting there It shalbe a p'te of the office and dutye of the Wardens to order and dispose of all things that Concerne the schoole, in such sort as in their wisdom and discretion they shall Judge most Conducible for the glory of God, and the trayning vp of the Children of the Towne in religion, learning and Civilitie.

and these orders to be Continued till the maior p'te of the Towne shall see cause to alter any p'te thereof.

Upon a generall and lawfull warning of all the inhabitants the 14^t of the first m^o 1645 the rules and orders aboue written p'sented to the Towne Concerning the schoole of Dorchester are Confirmed v^y the maior p'te of the Inhabitants.

[100.] *The 23 of the 12 month 1646.* Wee whose names are under written ; being chosen by the inhabitants of Dorchester ; to giue in ower determination about the fenses of a parsell of land caled the great lotts ; captins neck and 8 aker lotts and 6 aker lotts and other lands and medowes within the sayd fense ; to order and determine as is Hereafter expressed

This fense to begine att a creecke betwixt the new dwellinge House of John Holonds and the mill belonging to Edward Breck as the fense now standeth and so all along vnto the little spott of meado that belongs to John Holand and from that meado all along by the beach Vntill it comes to the ould fense agaynst Edward Breckes Barn and from that last last mensioned place as the fense now stands vnto the corner of this fenc next the towne and as the outsid fense now standeth belonging to the grett lotts all along as now it standeth vntill it commeth att the Riuer commonly caled neponsett Riuer taking in the 8 aker and 6 aker lotts. And if itt be found by experienc that neponsett Riuer be nott a suffisyent fense to secure the come from damag itt shall be in the power of the mageor part of the proprieters of this fild to secure itt att an equale charge of all the propyretors by ether Keeper or fense as they shall Judg most meett :

And where euer itt toucheth vpon any land of the sd John Holand Lee the s^d. John shall make and mayntayne the moyetye of the s^d. fense for euer and the other moyetye to make and mayne-taine for euer by the propyretors of the s^d filde.

And whereas some medowes are alredy fenced in and others intended to be fenced in at there owne charge and so to mayntayne it for ever.

wee order that if thos partyes or any that shall giue in security with in 20 days vnto the 7 men that are chosen to order the prudensiall affayers of the Towne to make up a sufficient fence betwene this and the first of the 3 month which shall bee in the yeare of the Lord 1648: and to mayntayne itt for ever that then shuch medowes shall nott pay nor make any part of the outside fence but all other medowes to beare part of the fence that is to say 2 akers of medow to beare as much fence as one aker of upland and all the upland to beare an equall proporsion of this outside fence to secure this fild that is to say every aker a like quantity of the said fence to make and mayntayne for ever. And where as wee vnderstand that some perticular men by contracte ether with the Towne or particular persons haue engaged them selves to make and maintayne for ever senerall parsel of this fence wee leaue them to make good ther perticuler bargaines and contractes: wee order that every mans fence shall lye aganst his owne land as much as may bee and wher itt cannot be layd aganst ther owne land yett to bee layde as neare to each mans house as conueniently it can bee and wher as some men haue mayd more fence then there proporsion will com now to according to the number of akers: wee order that who ever shall com in to make and maintayne any part of shuch fence shall giue an equall Value for the ould fence as 2 men shall Judge it to bee worth or otherwise if he or they refuse to giue so much for the ould fence then it is in the power of the owner of this to take it away Vnto his owne proper use and the other to sett up a sufficient fence in the Rounge of it: wee order that every man shall know where his fence shall lye and what quantity every man shall beare betwene this and the first day of the first moth if possible: we further order that every mans fence shall be mayd or repayred sufficiently to the satisfaction of shuch as are apoynted to Vewe the fences betwixt this day and the 10 of the 2 month Vppon shuch penaltys as the afore sayde 7 men shall see cause to Inflict vpon them: Further we order that it shall bee in the liberty of any of the proprietors at there owne charge to fence out any part of there owne land provided that still he or they maintaine there proporsione of there outside fence and If any man haue or hereafter shall fence in any part of ther owne land from the aforesayde fild that what damage soeuer any of the propyretors of the sayde fild shall resue by ether cattell or swine of there owne or others shuch person or person or persons as shall [101.] particularly fence in there land from the sayde fild that what damage the sayde filde shall resene through the defecte of his or theire fence he or they shall make it good as two Indeferant men shall Judge the damage to be.

And If any cattel or swine that of Right ought to feed in the aforsayd filde shall breake in or doe any hurt or damag vnto thes lots enclosed according to there liberty afore expressed from the aforesayde Generall filde shuch cattel or swine are nott to bee counted trespassers nor pay any damage.

Wee make ownely this exceptione concerninge one parsel of this

land ealed pine neck if the owner or owners of that land or meadow doe give security vnto the aforesayde 7 men within 20 dayes after the date herof for ever to secure this filde from damage through any part of that land and also secure it selfe from any damage that may com to them by any cattel that have Right to feed in this filde that then this land shall be exempted from any part of this generall fence, otherwise to beare it proporsione Equale with other lands of like qualty

Wee the p^resent inhabitants of Dorchester being p^rovoked and excited herevnto by the godly and Religious Request of some amonge vs that haue laid to hart the disorders that too often Fall out amonge vs and not the Least nor seldomest in o^r Towne meetings and the sleighting of the orders for the orderly Carringe on of our prudentiall Bussines and affaires in the Towne of Do^r afforesaid as also being hartily sorry For and ashaïmed of the p^rmisses and desireinge to manefest the same for the tyme to come and also accordinge to the Chardge that lyes vpō vs in many Respects to p^ruide for peace and the Floreshinge in o^r owne tymes and in o^r childrens. have thought good vpon mature and deliberate consideratiō to compose theise Few lines Followinge as a platforme or an abridg^mt of such orders which by the blessinge of god both we an l o^r Select men from yeare to yeare will Endeavor to walke in to the hono^r of god and Jesus christ whose name we p^riese (Amen)

Neuertheles: we doe giue them all accustomed liberty concerninge comon Landes in Fence also our towne lotts that they shall haue power to inioyne the seuerall p^rprietors to make and Repaire such

Item that they order the Ringeinge and youkeinge of Hoggēs; the keepeinge of our Cowes in the pen stutinge the Cow walke baringe the wools in season and that they carefully p'uide for the safty of our Comons: in the wood and Timber

Thirdly wee doe Require that the 7 men shall Faithfully and prudently onersee all the bussines of the Towne or betweene p'ty and p'ty that are comitted to them and carefully and peaceably issue them seasonably as also that they shall take care of all inferiō officers that they dischardge there places Faithffull and take accompt From them and therof to make Faithffull and punctuall Record in ther Towne booke that soe satisfaction maie be giuen in any Doubt vpon Demand as also that all Delinquences and mistakes in Rates taxed vpon the Tow: by the generall co't or other wise maie be Discoard and Condigently dealt withall as also that the 7 men for the tyme beinge doe tenderly and prudently p'uide that all abases hitherto haue benee greuous and iustly offence unto many [346.] in the disorderly Jarringe of our meetinges and the intemperate Clashinges and hasty indigested and Rash votes maie be p'uented (viz) that votes of any concernment be First drawne vp in writinge and then deliberately published 2 or 3 tymes and Liberty giuen for any to Speake his mind moderately and meekly and then the signe to be Required, and thinges more orderly carried and dispatch^d and also that care be Taken that such Remainders of Rates as are vnpaid and expose the Towne to blame or any ingaged for the towne For non payment be according^t to their best Light they can get be acquired after and Reformed and we do giue them Full Liberty and power to impose vpō the offendors in this case or the Like such penalty as they Find cause p'uided they Exceed not 5^s for the First offence to be Leuid p' distresse and Furthermore we doe by theise p'sents declare our intent to be that the 7 men From tyme to tyme shall haue power to Releia any p'sō or p'sons that the Towne Doth Require to Transact any busines For or any waye to become ingaged For them and afterwards Failes them to their damage and diseredit (p'uided they doe their vtmost to Find out the delinquents that the inocent suffer not:

apply themselves to their best prudence and ability to issue all such bussines in a faire peaceable and quiet maner and thereof to make a Faire and plaine Record in the Tow booke that in case any p'ue Contentious and will not be satisfied there maie be a Testimony For the wronged p'ty and we alow them 12d. a peece for their dinners at the ordinarie or elsewhere vpō the Towne chardge: also we doe giue them power to chardge the Towne with such summe or summes of mony From tyme to tyme as they shall haue need of for the prudent and orderly managinge of such thinges as Fall out in their tymes p'uided that one Rate be not aboue 20^{li} and that they make Faithfull colectiō and also disbursement thereof to be Recorded before another Rate be made and we require that all their orders about Towne bussines be seasonably drawne vp in writinge and published vpō some meetinge and also fixed vpō some obseruable place that soe the offenders maie haue no excuse or p'tence.

Fifthly For asmuch as hitherto it hath beene vpō sad experience seene that what soeuer good orders haue beene made haue come to no thinge be Reason of want of executiō: we the Freemen of Dorchester desireinge the Reformatiō thereof for the tyme to come haue ordered as Followeth viz that vpō the daye of Electiō accordinge to the p'misses we submit ourselves vnto the Electiō by papers of the maior p't to be at the 7 mens: appointment in the point of executiō of all their orders and takinge Distrenes by commissiō from them For one yeare and Further we order that such a one so chosen shall not be blamed by any for [397.] his Faithfull executiō but for his incorngement shall haue all Due Respect and Freedome From all other Towne offices that yeare and also such Recompence as the 7 men shall iudge meet out of the distreynes or otherwise and euery one Refuseinge shall Forfeit for the First offence 13^s 4^d to be Leuied by distresse

Sixtly for our 7 mens incorrugeint with the Freemen of Dorchester do agree that it shall not be Lawfull for any of Dorchester whosoeuer to sleight either the p'sons or orders of the 7 men For the tyme beinge but that all their orders for prudentiall order shall stand Ratified from the Liberty affore giuen and whosoeuer shall offend in the p'misses we will Require it of him as sume beside such Penalty as his offence shall deserue

Seauently we the Freemen of Dorchester doe vnto the p'misses assent and agree and hartily and Truely by the helpe of god will Endeavour the inviolable observatiō of the same and for the confirmatiō of the p'misses accordinge to our vsuall maner we haue solemnly giuen our vote and also chosen and intreated our brō John Wiswall this 21 of the 10 mo. 1645 to Record the same to be a Rule for our selues and successors except god shall put into our or their harts some more p'fitable and prudent waye and we doe Further p'ffesse that we intend no neglect or contempt of the general Corte or the wholsome Lawes from thence Estableshd

For as much as at the last Geñall meeting the day and yeare abonesaid their was offence taken that the Record of the disbursm^{ts} of the towne rates for the yeare 52 and 53 was not so punctuall as was desired and conseived to be the neglect of the Select men then a being which som of vs confesse might haue ben more playne had it ben minded; a greater falt would it haue ben if their had ben no record at all, as in the yeares 45 : 47 : 48 : their is none in the booke to be found.

If their wer in those yeares aney disbursm^{ts} the directory made and agreed vpon the 24 of the 10 mo. 45 requier a faithfull discharge theirow vpon record.

For that their may be such a punctuall record as aforesaid; I

is conseived meete that bills of layinge out by aney, and brought in to the Select men to be allowed be a playne, and each p'ticuler thing to be distinctly set downe, with the disbursm^t for the same, eis not to be received, that so the record of the same in the towne booke p'sentid vnto the towne at their Generall meeting for that end may be accordingly to the satisfaction of the Inhabitants of the same.

Severall votes past the day and yeare abovesaid which ar entered and recorded towards the beginning of the booke in page the 76 and 77.

[Here the miscellaneous entries which began with p. 385 (our page 282 *ante*) end. There are no pages numbered 430 to 437 inclusive, but the reverse of p. 429 is numbered 438. Then begins the regular record of the town with a meeting March 14, 1686-7. The book continues to page 634 (pp. 635 and 636 being memoranda only, except the report on page 635 of a meeting held May 25, 1719), whereon is part of the record of a meeting on March 9, 1718-9. The remainder of the record is to be found in the second book, beginning on p. 194. The previous pages of that volume contain miscellaneous deeds and other town matters of an earlier date. — W. H.
